in this way no votes can be cast until the curtain is drawn.

Each man as he entered the polling place was instructed in the mysteries of the new machine by Charles McMahon, deputy sheriff of the Probate court.

The results recorded by the machine were as follows:

Alfred D. Williston, republican, 84.
Democratic column (no candidate), 6.
Theodore Schwuchow, prohibition, 7.
John E. Phelan, socialist, 3.
Otto Larson, independent labor, 37.
Five votes were registered on a blank ticket, showing that the voters did not understand the workings of the machine.

PREPARE FOR STATE BATTLE.

Republicans of Cook County Today Will Make Plans for New Contests at the Polls.

There will be a general movement of republican forces all along the line in Cook county today preparatory to beginning the gubernatorial battle.

Charles S. Deneen said yesterday that the workers in his camp were eager for the contest. He took advantage of the election, when the headquarters staff and the usual crowd of callers were not present, to confer with several members of his campaign committee and complete the plans for carrying on his part of the fight. They went over the situation by wards to determine where the opposition is strong, so the state's attorney may concentrate his efforts at those points.

The first public demonstration probably will be held Friday night, though in what part of the city has not been decided. Mr. Deneen will spend today and tomorrow at his headquarters in conference with the committee and the managers of his campaign. Frank O. Lowden's managers announced that the Lowden forces would begin holding meetings every night early next week.

VOTERS REVOLT IN KANSAS CITY

Democratic Machine Is Smashed and J. H. Neff, a Republican, Is Elected Mayor.

Kansas City, Mo., April 5.—[Special.]—J. H. Neff, the republican nominee for mayor, and almost the entire republican ticket was elected today in Kansas City by a small majority over the regular democratic ticket headed by William T. Kemper, the police machine nominee.

Reed, the police machine democrat, was elected two years ago by 1,000 majority over the republican. There were two democratic tickets. The home rule democratic ticket headed by George M. Shelley was for good government and polled only a small vote, and most of Shelley's strength went to the republicans, because the people were tired of democratic machine rule and the police machine's fight on Folk and the anti-machine democrats.

The claims tonight are that the republicans will carry the city by 1,000 votes. The surprise of the campaign has been the strength of the union labor candidate for mayor, who has probably polled 4,000 votes.

The results in other Missouri towns were as follows:

REPUBLICAN: Lebanon, Bethany, Brookfield, Windsor, Carthage, Boonville.
DEMOCRATIC: Troy, St. Joseph, Springfield, Higginsville, Marshall, Lamar, Mexico, Monroe City, Butler, Macon, Clarence.
DIVIDED: Slater, Clinton, Pacific, Webster, Sedalia, Sumner, Jefferson City, Joplin.

QUIET ELECTION IN EVANSTON.

Only One of the Northwestern Railway's Aldermanic Candidates Successful—Light Vote Is Cast.

Little interest was shown in the election in Evanston, and the balloting was unusually light, only 2,025 votes being cast. The aldermanic candidates were: First ward, Frederick Arnd; Second ward, J. B. Grier; Third ward, J. F. Flinn; Fourth ward, Peter Schimberg; Fifth ward, Oscar Kappler; Sixth ward, John W. Branch; Seventh ward, Frank E. Dyche. Only one of the Chicago and Northwestern railroad candidates, Mr. Branch, was elected. The other two, E. J. Williams and William Norkett of the Second and Fourth wards, were defeated by large majorities.

VOTING BY MACHINE IS FAST.

Result in Precinct Known Three Minutes After Polls Close—Some Mistakes Made.

A voting machine was used for the first time yesterday in a Chicago municipal election, and the result of the election in that precinct was known by the election commissioners three minutes after the closing of the polls. The machine was tested in the Fourteenth precinct of the Twenty-fifth ward. The device is a flat box, two feet by three. Projecting through the top are 240 keys, arranged in eight separate party rows. Each candidate's name is placed after one of these keys in his party row, each party having thirty keys for its candidates. When the curtain of the booth is closed an iron lever is moved permitting the machine to be operated. When the booth is again opened the machine is locked and will not register,

CHICAGO NEGROES LISTEN TO BOOKER WASHINGTON'S WORDS

Banquet for the Educator the Occasion for Renewal of the Advice to Enter Organized Industrial Life.

The negro race was urged again to enter into active industrial competition with the white people by Booker T. Washington last night. The negro educator spoke at a banquet given by the Negro Business Men's league in the Waldorf café, 3027 State street.

During the evening an attack was made on Edward H. Morris, the negro lawyer, by President Theodore W. Jones of the league, who blamed Morris for all the criticism of Mr. Washington's work made by negroes of Chicago.

Earlier in the day Mr. Washington addressed 2,500 persons in the Bethel African Methodist Episcopal church, Thirtieth and Dearborn streets.

"The real problem that confronts our race is in the southern part of the United States," said he. "In proportion to the population, I fear a problem just as serious soon will exist in the north and west.

"Every group of people which has risen have done so by mastering one difficulty at a time, not by attempting to achieve at a bound that which has required other races centuries to accomplish."
